

Plantillas editables de
PRODUCTOS
Usar en Illustrator o CorelDraw

Sublime

¡Antes de usarlas, ten en cuenta!

Las plantillas ilustradas en este manual son elaboradas en base a los productos distribuidos por Tendencias GyG, estas en algunos casos pueden variar frente el producto unos centímetros o milímetros.

Recomendamos que antes de usarlas, hacer un impresión de prueba y verificar que se ajuste a su producto.

1. Utiliza el programa de diseño de tu elección (Illustrator ó CorelDraw).
2. Estas plantillas únicamente se pueden usar en programas de diseño.
3. Verifica las medidas de los productos antes de diseñar, recuerda que algunos pueden variar según el producto.
4. Recuerda siempre no diseñar al borde, esto para evitar que al momento de sublimar se te corte el diseño, etc.
